SUMMARY

Aspiring frontend engineer with a strong foundation in React, TypeScript, and JavaScript, complemented by professional experience in developing and coordinating software tools within the insurance sector. Proficient in translating user requirements into functional designs, with a keen eye for detail and problem-solving. Excited to leverage past experiences in client management, efficiency optimization, and software collaboration to create user-centric web applications.

EDUCATION

Software Engineering Certificate – Frontend Specialization

ALX Africa, 2024

- Gained expertise in React, TypeScript, JavaScript, HTML, CSS, and responsive web design.
- Completed capstone projects including a responsive portfolio website and an e-commerce platform prototype.

Virtual Assistant Course

ALX Africa, 2022

Diploma in Insurance

The Chartered Insurance Institute, 2019

Certified Public Accountant Finalist (CPA Finalist)

Kenya Accountants and Secretaries National Examinations Board, 2013

Bachelor of Commerce and Business Administration (Finance)

Jomo Kenyatta University of Agriculture and Technology, 2012

TECHNICAL SKILLS

- Frontend Development: React, TypeScript, JavaScript, HTML, CSS
- Styling: Tailwind CSS, Framer Motion
- Version Control: Git, GitHub
- Tools: Visual Studio Code, Chrome DevTools
- Other Skills: Responsive design, Debugging, Collaboration tools (Trello, Slack)

PROJECTS

Responsive Portfolio Website (Developed using Vite, React, and TypeScript)

- Designed and developed a personal portfolio showcasing skills and projects.
- Features responsive layouts and interactive elements using modern React practices.

E-Commerce Platform Prototype (Developed using the MERN Stack with TypeScript)

- Collaborated with a backend developer to build a full-stack e-commerce application.
- Integrated technologies like Tailwind CSS, Framer Motion, and Lucide React for an optimized user interface and animations.
- Implemented functionalities such as product listings, filtering options, and a shopping cart for a seamless shopping experience.

Insurance Management Tool (during tenure at Actuarial Services East Africa Limited)

- Collaborated on the development of an internal insurance management system, contributing to requirements gathering and user interface feedback.

WORK EXPERIENCE

Senior Account Executive

Actuarial Services East Africa Limited, Nairobi, Kenya

July 2020 to June 2024

- Partnered with the software team to design features for an insurance agency system, streamlining operations and reducing processing time by 25%.
- Conducted training sessions for team members on utilizing new system functionalities effectively.
- Enhanced customer service workflows through automation and digital tools.

Underwriter

Kava Insurance Brokers Limited, Nairobi, Kenya

July 2019 to June 2020

- Spearheaded the transition to a centralized online filing system, improving document retrieval efficiency by 40%.
- Collaborated with IT professionals to digitize policy renewal processes, reducing errors by 30%.

Assistant Principal Officer & Insurance Executive

Kenya Medical Association Sacco Limited, Nairobi, Kenya

April 2015 to August 2018

- Contributed to the implementation of Microsoft Dynamics Navision, automating data management and reporting for a 60% productivity boost.

CERTIFICATIONS

- Responsive Web Design Certification - freeCodeCamp (2024)
- JavaScript Algorithms and Data Structures Certification - freeCodeCamp (2024)
